petrol stations  
worldwide

Installations

**Forecourt  
automation solutions**

# PTS-2 forecourt controller

**PTS-2 converts your petrol station into a Smart Internet-Of-Things ecosystem**

# Automatic tank calibration

**Optimal:** only pumps and probes connected, no other equipment needed

**Versatility:** easily integrates with third-party controllers

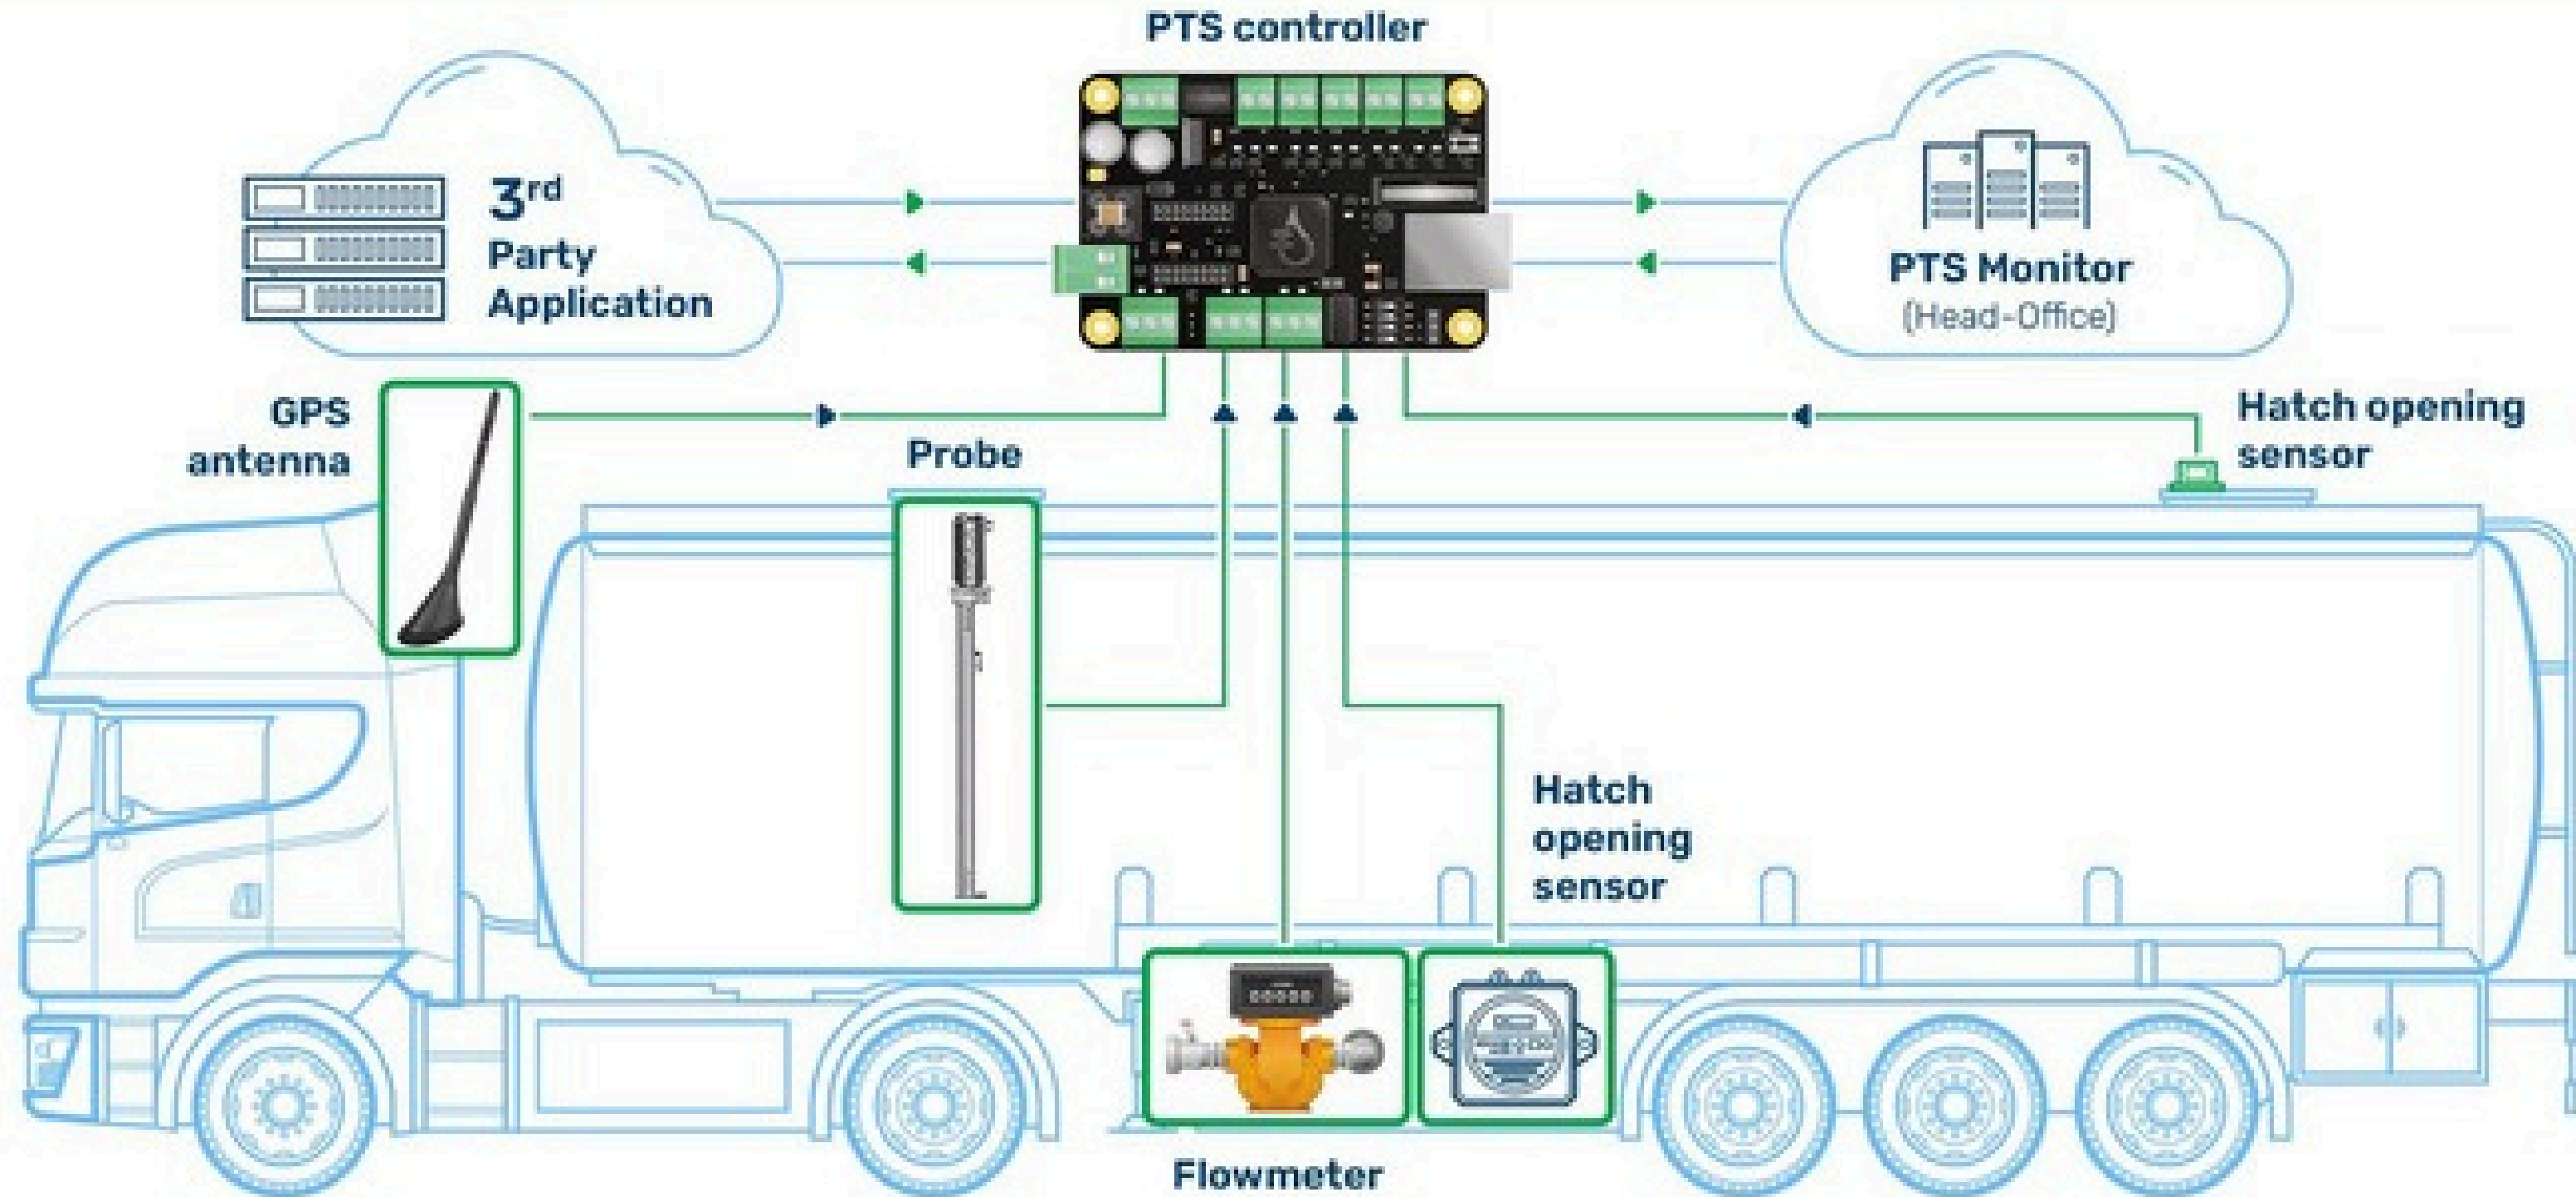

**Cost effective:**

- No manual work or degassing
- No station downtime
- No fuel or water disposal
- No regular fees

**Accuracy and automation:**

continuous, accurate calculation of tank calibration tables, eliminating human error

# Fuel delivery trucks automation

**Full control over the fuel delivery trucks:  
fillings, fuel remains, sensors, route travelled and location**

# PTS Pay Android application

- Works 24/7
- Fuel attendant and self-service modes
- Pay at the pump or from your car
- Instant receipts

# PTS Monitor Head-Office

- Remote price management
- Detailed reporting
- Realtime monitoring
- Technical diagnostics
- Daily inventory reports
- Fuel card system
