UNITI expo - the platform for the retail petroleum and car wash industries in Europe

In May 2018, the third **UNITI expo** in Stuttgart once again confirmed its position as the leading European trade fair in the sector.

On an exhibition space of 40,000 m², **UNITI expo 2018** offered a unique industry show that was accompanied by

an exciting series of talks. To provide visitors with an optimal overview and allow them to get the most out of their visit, the trade fair was divided into the following four themed areas: **"Technology, payment & logistics", "Oil companies & fuel retailers", "Shop & convenience" and "Car wash & Car care".**

Fuel logistics at UNITI expo

Fuel logistics is one of the keys to the successful operation of a petrol station network. The market always offers innovative solutions for security of supply, storage, process and cost optimisation as well as fuel transportation. These are sought and found at **UNITI expo** by many national and international oil companies, retail petroleum operators and fuel retailers.

As a supplier, take advantage of these solutions at **UNITI expo**, showcase your innovations and expand your networks. There is simply no other event in the world that allows you to reach more top retail petroleum and oil industry decision-makers in one place and in just three days.
