

## New date of **UNITI expo** is set

### **UNITI expo 2021** has been postponed to 17-19 May 2022

[22 September 2020] – The organizers of **UNITI expo** expect more restrictions next year for the event industry due to the coronavirus SARS-CoV-2 – this will inevitably have an impact on the success of the trade fair. With this in mind, the organizers have decided to postpone the fair from the planned date of February 2021. In agreement with Landesmesse Stuttgart, the final date of the leading European trade fair for the retail petroleum and car wash industries has now been set: 17 to 19 May 2022.

"The health and safety of all participants is our top priority. A lively trade fair with numerous international trade visitors and versatile networking opportunities has characterized **UNITI expo** from the very beginning. Key elements such as the conference program, the GenussGARTEN FOODCOURT and the networking party would only be possible with extreme restrictions, or not at all. The new date makes us confident that we can build on the success of the past years," says Elmar Kühn, Managing Director of UNITI-Kraftstoff GmbH. With this date, the organizers are giving the participants maximum planning security.

With the exception of the date, there are no changes to the general conditions of the fair. Thus, in May 2022, Halls 1, 3 and 5 will be occupied by 40,000m<sup>2</sup> of exhibition space. "We are very pleased about the unchanged hall plan. This saves our exhibitors having to plan their stands again and enables them to be present at the originally chosen stand location," says Ben Boroewitsch, Managing Director of com-a-tec GmbH and exhibitor contact.

The new date for **UNITI expo** has been met with broad support from the industry. Numerous exhibitors, cooperation partners, and CECOD, the biggest European association for manufacturers of tank technology, have already welcomed the decision and approved the new date for May 2022.

"We are happy to have received so much positive feedback shortly after the announcement of the postponement. This shows once again the strong cohesion within the industry and motivates us to work with great commitment on an all-round successful **UNITI expo 2022**, which after a long corona period will finally bring the global industry together in one place again," emphasizes Ben Boroewitsch.

17 - 19 May 2022, Stuttgart, Germany

### About **UNITI expo**

**UNITI expo** is the leading European trade fair for the retail petroleum and car wash industries. With its compact three-day format, the biennial trade show is tailored to the needs of its target audience. The exhibition space is divided into four themed areas: **Technology, payment & logistics; Car wash & car care; Oil companies & fuel retailers; and Shop & convenience.** In 2018, the third edition of **UNITI expo** gathered **467 exhibitors and 17,000 attendees from 120 countries** on an exhibition area of 40,000 m<sup>2</sup>. **UNITI expo** is organized by UNITI-Kraftstoff GmbH in cooperation with com-a-tec GmbH and WDM management consultancy.
