## **You want more..?**

**Do not hesitate to contact us! We offer a great variety of services and products around tradeshow and events. Anything from one source – from the first draft to production and assembly. Whatever our interior designers, architects and exhibit designers develop together with you is implemented by our highly experienced printers and artisans, in-house, in our facilities – from computer-driven equipment based woodworking to digital large format printing. With nearly 100% of production being kept in-house, we keep everything under control. We provide highest quality results – in time and in budget.**

**We are at your disposal!**

**For further information and additional needs or equipment, please contact**

The completed booths will be ready to be occupied 24 hours prior to show start.

A hand-over will take place on 18.05.2026 at 9 a.m.

The assembly manager's mobile number will be passed on to you and you may contact him upon your arrival on site. Key hand-over and instructions will happen on your booth.

Booths may be ordered six weeks prior to the opening of the exhibition.

Booths on a rental basis must be cleared within two hours upon the end of the exhibition.

Mrs. Lucke will be your contact for all questions regarding your booth design.

Rented material is only supplied for the agreed time and purpose.

The tenant is responsible for any damage or loss off rented objects even if they were damaged by another party. Conditions apply after delivery to the booth and end with return to or collections from the supplier even if the tenant has left the site early.

Wall materials named „wall, not wallpapered“ may be wallpapered or covered in fabric by the exhibitor or subcontractors as long as it is assured that all wallpapers can be and will be removed free from residue by the end of the fair through the exhibitor or a subcontractor. It is not permitted to paint or stick something on wall material which is not wallpapered. No nails or screws are to be inserted into walls. Damaged wall material will be invoiced at its purchase price. A cleaning fee will be issued for all walls that are returned unclean. The fee is EURO 1,50 per qm visible surface.

Wall materials named „system wall element“ and „wall element melamine white“ may be covered by the exhibitor or a subcontractor with the help of cello tape or powerstrips. No use of nails or screws or other adhesive tape is permitted. Damaged wall material will be invoiced at its purchase price.

It is recommended to insure rented goods against theft for the time of the exhibition.

Rented goods which are not returned will be invoiced at their purchase price.

Transport costs are included in the rental charge if goods are transported to frequently visited fairs. An extra charge will be invoiced for transports to other locations. No price reductions for self pick up can be granted.

Deliveries for agreements without specific dates will be supplied in time for the fair beginning.

Pre ordered or reserved rental goods which the tenant has not taken up will be invoiced at full rental price. If those goods can be rented out otherwise, the tenant has to cover all transport costs and potential loss of rent.

The supplier reserves the option to deliver alternative goods in the same quality in act of nature beyond control. No claims can be made for replacement deliveries.

All orders need to be made 14 days prior to exhibition begin. Orders after that deadline can only be accepted with reservations and will be calculated with an extra 20% charge.

The invoice is to be reviewed immediately. Complaints and returns have to be discussed with the supplier while the exhibition is running in order to allow us to restore and replace goods there and then. Charges have to be paid when assembly starts. They have to be paid after receiving the invoice at latest. Foreign exhibitors are requested to pay in EURO prior to exhibition start.

Place of execution and competent court in Blomberg, Germany.
